

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Owing to the total destruction of the records in the Clerk's office in the Court of Claims by the fire in the Capitol on March 29, 1911, new records had to be obtained and a new system of filing devised. This task is being completed and the Clerk's office is now equipped with a modern card index and filing system.

The following sessions were held during the year 1912:

Rochester, January 22d to February 21st.

Saratoga, February 26th to March 22d.

Syracuse, April 1st to 8th.

New York, April 8th to 12th.

Syracuse, April 15th to 26th.

Utica, May 6th to 29th.

Buffalo, June 3rd to 20th.

New York, July 15th to 19th.

Buffalo and Syracuse, September 16th to October 3rd.

Rochester, October 7th to 17th.

Syracuse, November 11th to 26th.

Albany, December 2d to 30th.

All of which is respectfully submitted.

The total amount of awards made therein, ex-
clusive of interest, is the sum of..... 892,066 55

Leaving a difference between amount claimed
and amounts of awards of..... \$3,161,479 91

Of the foregoing 764 cases disposed of, 478 claims were tried and stipulated, 280 dismissed, 6 cases which had been appealed, decision having been rendered in same, determinations for costs were entered. Seven hundred and sixty-four total claims heard and disposed of during 1913.

In addition to the above the report of William B. Milliman, Esq., Special Examiner and Appraiser of Canal Lands, for the year 1913, shows that 255 settlements covering 300 parcels of land were made by him, amounting to the sum of \$645,642.23.

These 255 settlements will foreclose the filing of at least as many claims before this Board and consequently eliminate the time and expense of trials.

Total number of claims filed during 1913.... 558

Amount claimed in said 558 claims is \$15,497,159.52 as follows:

11 contract claims	\$1,360,288 55
27 negligence claims	217,363 14
29 miscellaneous claims	73,031 26
93 leakage and overflow claims.....	107,222 90
398 Barge Canal, permanent appropriation, water power, and damages incidental thereto	13,739,253 67
558 Total	\$15,497,159 52

Total number of claims filed during the year 1912.. 677

Total number of claims filed during the year 1913.. 558

It will be noted from the above that there were 119 less claims filed in the year 1913 than in the year of 1912. This can be accounted for from the fact that it is estimated that nearly all of the remaining claims for Barge Canal appropriations of land have been filed.

The construction of the Barge Canal necessitated the appropriation of considerable land throughout the State. This accounts for the great increase in the number of claims filed during the past three years. However, the Board hopes to dispose of all the land appropriation cases during the year 1914. This will materially reduce the number of claims on file.

The following is a complete list of all claims now on file, pending and undecided:

1166 leakage, overflow and damage to personal property.

649 Barge Canal permanent appropriation claims.

228 Barge Canal Damage claims.

44 contract claims.

89 negligence claims.

20 tax refund claims.
9 Saratoga Reservation claims.
128 compensation claims.
56 miscellaneous claims.

2389 Total undisposed of claims.

It will be noted that in the above list of "undisposed of claims" there are left only 649 permanent appropriation claims, for land taken by the State.

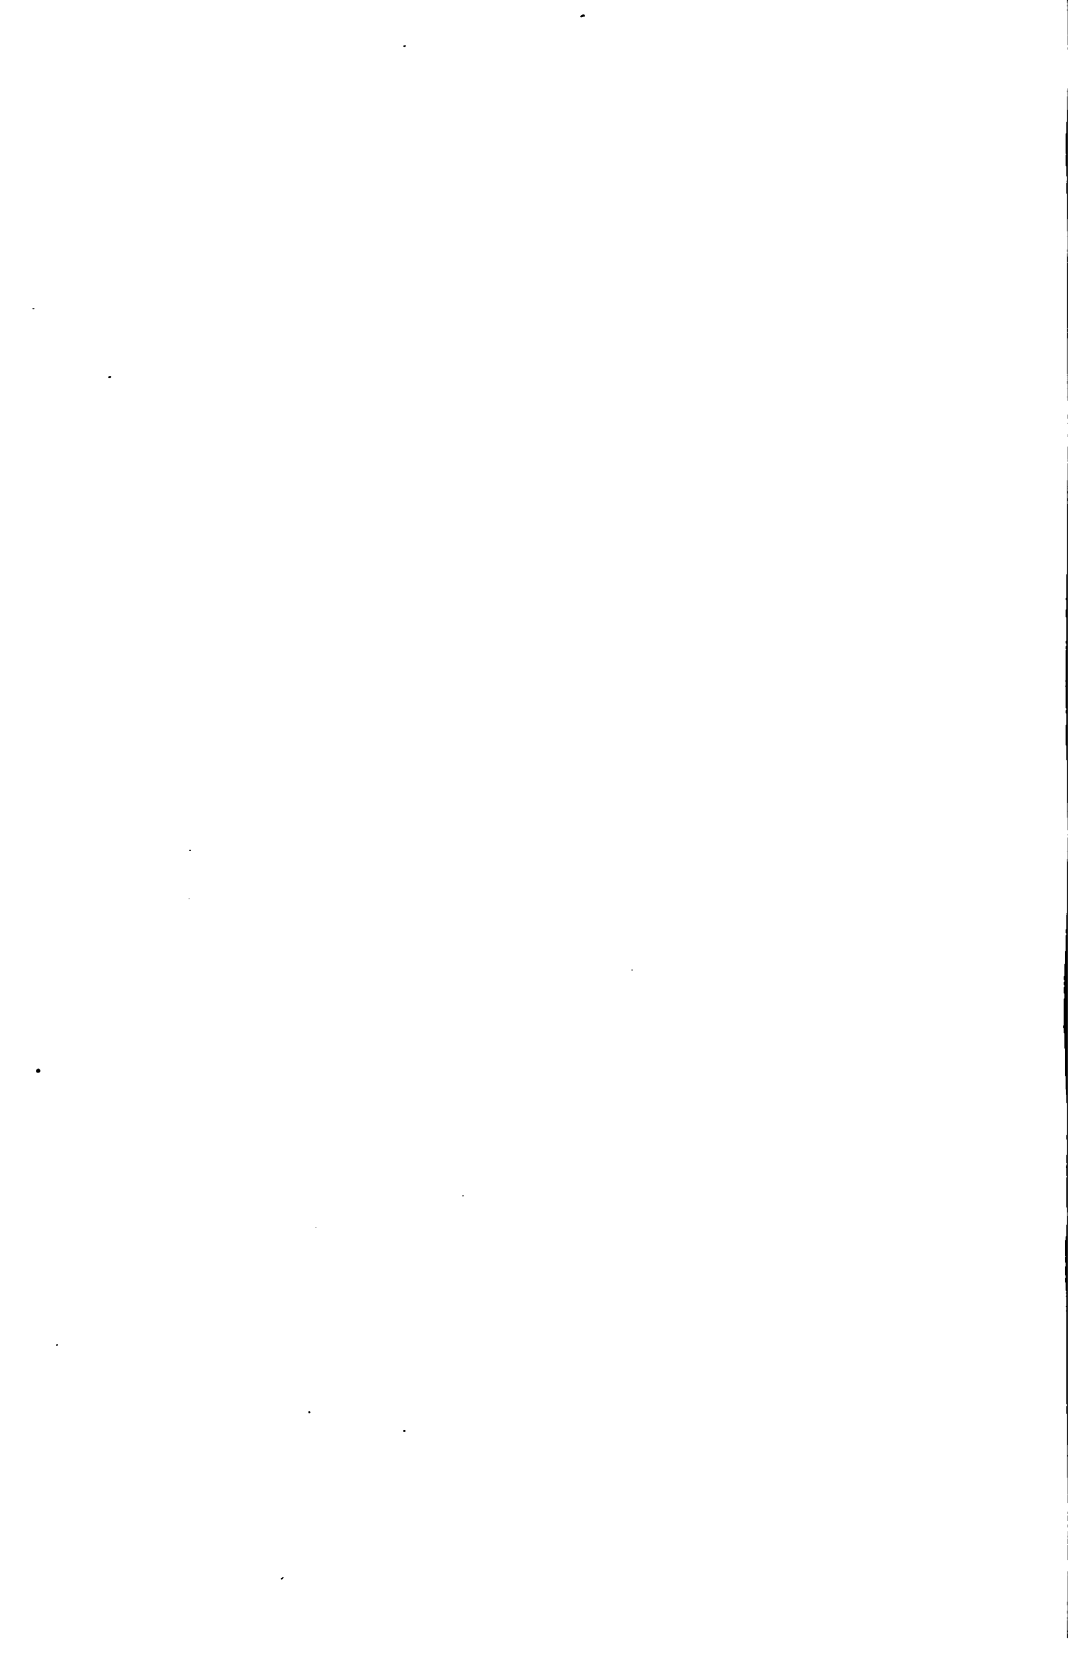

The claims, 1,166 in number, for "leakages and overflow" embrace at least five hundred claims which are practically abandoned, not having been noticed for trial by claimants during a period of at least five years. The Board expects, this year, upon notice to claimants, to dismiss or compel a prompt trial of these claims.

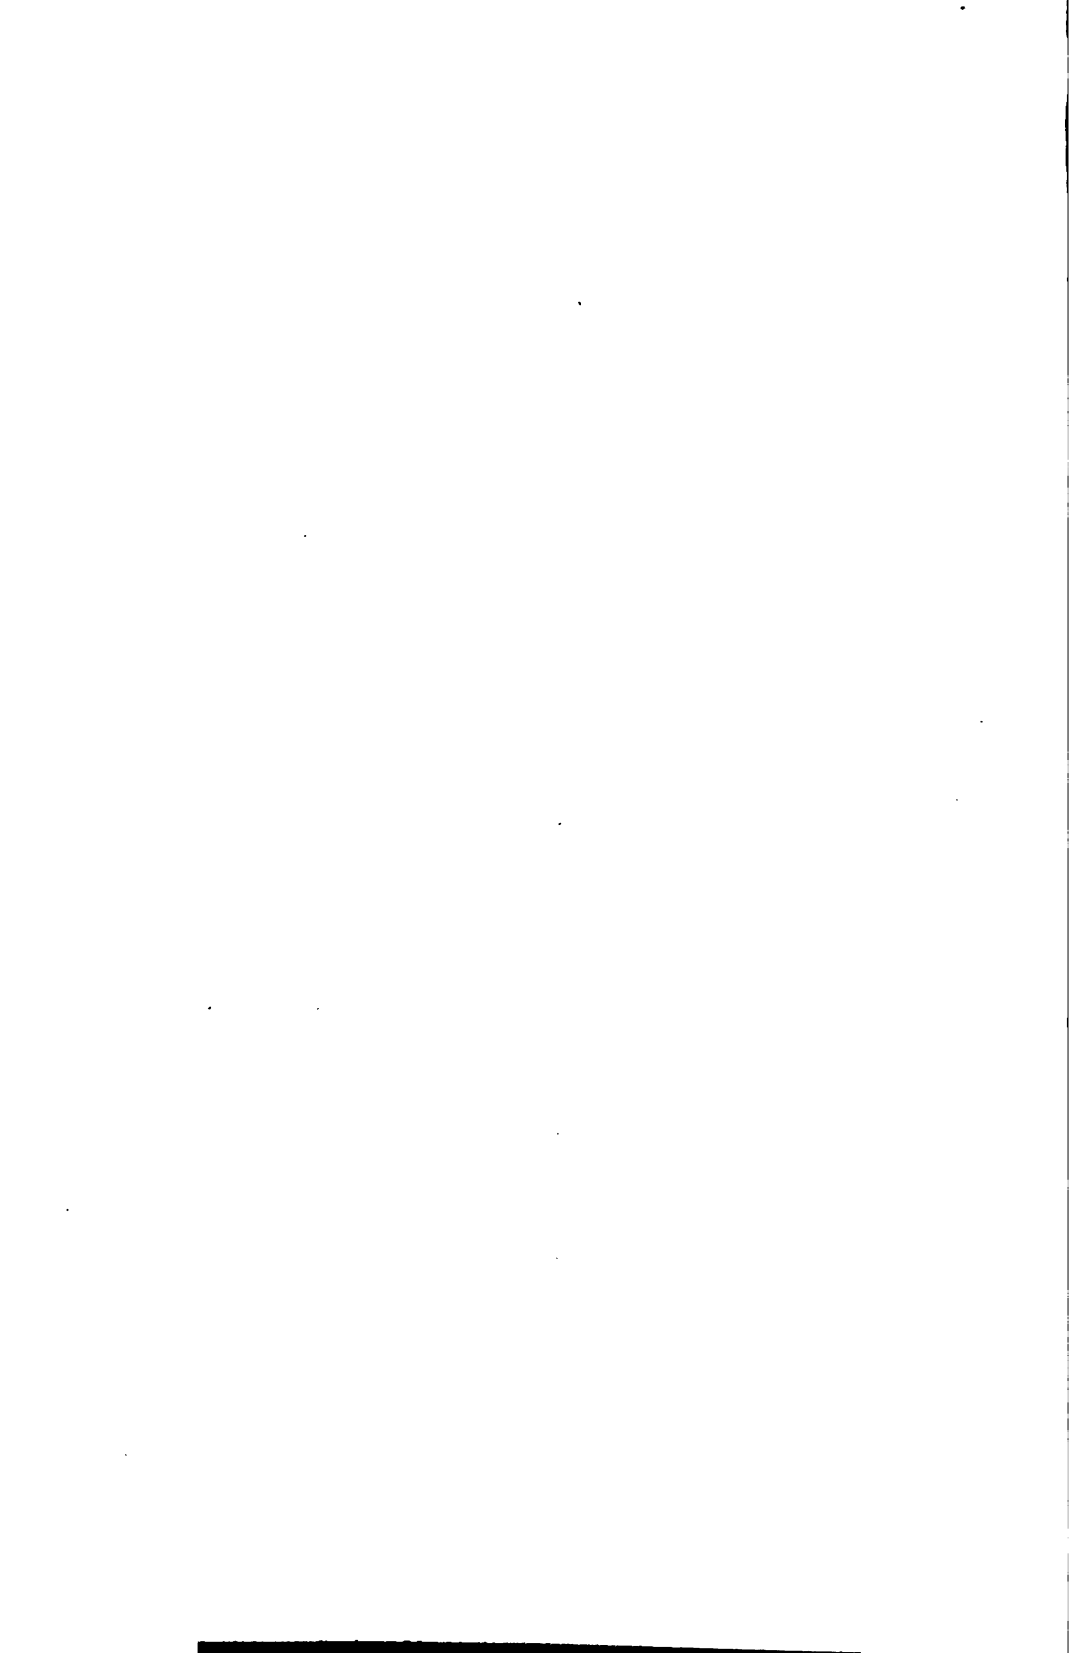

All of which is respectfully submitted,

JOHN JEROME ROONEY,
WM. A. GARDNER,
JAMES C. McDONALD,

Commissioners of the Board of Claims.

BOARD OF CLAIMS

Commissioner.
JAMES C. McDONALD,
Commissioner.

REPORT

To the Legislature of the State of New York:

In accordance with the requirements of section 271 of the Code of Civil Procedure, the Board of Claims, submits its fourth annual report.

In view of the discussion in public documents and elsewhere regarding the claims against the State, growing out of the new Barge canal and other State activities, and suggestions regarding the future disposition of such matters, the Board deems it of interest to give to the Legislature, in addition to the usual report of work performed, a brief outline of the origin and growth of the Board and of the subject matter that, under the law, comes before the Board.

The Board's jurisdiction is provided for in the Code of Civil Procedure, sections 263 to 281, inclusive. A reference to those sections will show the broad jurisdiction and powers conferred upon the Board and, at the same time, will illustrate the fact that the Board must proceed under strict procedure, work under the legal rules of evidence and be appealed from to the Appellate Division of the Third Department, Supreme Court, and to the Court of Appeals on a case and exceptions.

Section 265 reads as follows: "Rules and Procedure. The Court may establish rules for its government and practice therein; prescribe the forms and methods of procedure before it, vacate and modify judgments, and grant new trials, and except as otherwise provided in the rules and regulations, or the Code of Civil Procedure, the practice shall be the same as in the Supreme Court."

The jurisdiction of the Board is specifically covered under section 264.

Section 268 requires the Board to hold at least eight regular trial sessions each year. The Board during the past year held nine regular trial sessions in the various cities of the State, as indicated elsewhere in this report, and in addition six extra trial sessions. Each one of these trial sessions lasted from three to

four weeks. In addition to the trial sessions, the Board has held during the year ten sessions at its Albany office for consultation and handing down the decisions.

It will also be noted that under the Code of Civil Procedure, section 268, the Board is required to personally view all land appropriated the value of which exceeds \$500. Under this provision the Board has been called upon to view substantially all Barge canal properties, which have come before us for trial and determination.

All cases before the Board are defended by the Attorney-General and his assistants. The Department of Public Works, through its agents, attends to the securing of witnesses for the State's defense. In this work the State Engineer's Department co-operates with the Attorney-General in the preparation of the technical portions of the State's case. The Board works on a printed calendar. All cases are noticed, under the rules of the Board, at least thirty days before the regularly fixed sessions of the Board. The dates of the regular sessions and place and city are indicated in the Code of Civil Procedure, section 268. It is the duty of claimants, or their counsel, to notice their cases, serving also the Attorney-General with a notice of trial. Any claimant whose claim is filed with the Board may notice his case in this manner. After it appears upon the printed calendar of the Board and when both sides are ready (the Attorney-General and claimant) the Board places the claim upon its day calendar for trial when reached. The printed rules of the Board (established under section 265 of the Code) and calendars are available to all claimants and their attorneys.

A brief outline of the development and growth of the Board may be of interest. This outline is given in 204 N. Y., pages 483 to 86, Chief Justice Cullen writing:

"The history of the disposition of private claims against the State is as follows: The State, being sovereign, is immune from suit except in the Supreme Court of the United States at the instance of another State under the provisions of the Federal Constitution. Claimants had, therefore, to rely on the sense of justice of the Legislature. By chapter 321 of the Laws of 1870 jurisdiction was conferred on the canal appraisers to hear and de-

termine certain classes of claims arising from the use and management of the canals, but the great mass of claims against the State were submitted to and passed on directly by the legislature, which provided for their payment. By an amendment to the Constitution made in 1874, which is now reproduced in section 19 of article 3 of the present Constitution, it was enacted that the Legislature "shall neither audit nor allow any private claim or account against the State, but may appropriate money to pay such claims as shall have been audited and allowed according to law." Thereupon it became necessary, unless the State was either to violate its obligations or was willing to surrender its immunity and subject itself to suits in the courts like other litigants, for the Legislature to create some board or tribunal which could pass upon and audit claims against it. Hence, in 1876 (by chap. 444) it was enacted that the Comptroller, Secretary of State and State Treasurer should constitute a State board of Audit with power to hear all private claims and accounts against the State, except such as were then heard by the canal appraisers, to administer oaths and take testimony in relation thereto, to determine the justice and amounts thereof, and to allow such sums as should be equitable. The Board was authorized to establish rules as to the forms and methods of procedure before it. In 1883 (by chap. 205) the canal appraisers and the State Board of Audit were abolished and the Board of Claims constituted, to consist of three commissioners to be appointed by the Governor and to hold office for the term of six years. The Board was given jurisdiction to hear, audit and determine all private claims against the State, and it was also enacted that it should have jurisdiction of all claims on the part of the State against any person making a claim against the State and should determine such claims or demands both on the part of the state and the claimant; and if it found that the demand of the State exceeded that of the claimant, it should award such excess in favor of the State against the claimant. It will thus be seen that the jurisdiction conferred on the Board of Claims was of the broadest character. It included every private claim against the State and authorized the determination of set-offs or counterclaims by the State against the claimant.

Chapter 36 of the Laws of 1897 enacted that the Board of Claims should be continued and thereafter known as the Court

of Claims. The act provided for the procedure by and before it and assimilated the procedure to that in regular courts, but it did not add one iota to the jurisdiction formerly possessed by the Board of Claims. Indeed, it was impossible that the jurisdiction of the Board of Claims, so far as the subject-matter of private claims by or against the State, could be increased, for already it was universal. Jurisdiction to determine public claims against the State was not conferred upon the Board of Claims (*Bd. Suprs. of County of Cayuga v. State of N. Y.*, 153 N. Y. 279), nor was it ever conferred on the Court of Claims, except in some special case by act of the Legislature. One must not be misled by the fact that special laws were passed referring cases to the Board of Claims. Such were not rendered necessary because of any limitation on the jurisdiction of that Board, but because such claims were not legal ones, but rested solely on morals and equity, and, therefore, were not enforceable until recognized by the Legislature. Examples of cases of this character are to be found in *Cole v. State of N. Y.* (102 N. Y. 48) and *O'Hara v. State of N. Y.* (112 id. 146). By chapter 692 of the Laws of 1906 the terms of the judges then in office were extended ten years from the date of the act, and it was provided that they should continue in office until their successors were appointed and qualified.

The statute of 1911 (chap. 856), already mentioned, amended section 363 of the Code of Civil Procedure so that there was no longer any authority for a Court of Claims, but the Board of Claims was continued to be composed, instead of judges, of three commissioners. The judges of the Court of Claims, then serving as such, were to be known as commissioners. Their terms were abrogated and their successors directed to be appointed by the Governor within sixty days after the passage of the act.

Thus it would seem from the limited jurisdiction of the canal appraisers, under chapter 321 of the Laws of 1870, the powers of the Board have developed until the Court of Appeals stated that "it was impossible that the jurisdiction of the Board of Claims, so far as the subject-matter of private claims by or against the state, could be increased, for already it was universal."

A large portion of the claims filed with the Board, as will be shown by reference to the detailed statement filed herein, grow

out of the State's undertaking the improved Barge canal and other large State work such as the improved highways.

A reference to the number of cases disposed of by the Board and by its immediate predecessor, the Court of Claims, over a period of three to four years respectively, will indicate the development of the work performed by these two bodies, which were identical in jurisdiction. Claims disposed of during the following years by the Court of Claims were as follows:

	Claims
Year 1908.....	385
Year 1909.....	410
Year 1910.....	664

The Board of Claims was organized October 19, 1911. From 1912 to date under the respective years, the Board's work was as follows:

	Claims
Year 1912.....	429
Year 1913.....	764
Year 1914.....	1,083

The Board has made a special effort whenever possible to give preference in the hearings to claims involving the appropriation by the State of land and buildings. Wherever the attention of the Board was called by counsel or claimants to cases of hardship growing out of such appropriations the Board has held extra sessions, or divided into parts to take the necessary testimony involved. As a result of this policy it can be confidently stated that every claim in the State, involving such appropriations, which has been properly noticed for trial, or brought to the attention of the Board by motion to add to the calendar at a session, has been given an opportunity to be heard and disposed of. It should also be remembered that all such claimants have an opportunity of settlement with the State Appraiser and that claims are filed with the Board because of some element of damage which requires to be litigated and which the State Appraiser and Canal Board declined to settle without such litigation. There is no claim for the appropriation of land and buildings pending before the Board in which such offers of settlement have not been made,

not alone by the State Appraiser and Canal Board, but frequently during the sessions of the Board by offer of compromise by the Attorney-General. Moreover all such claims are represented by attorneys of record, and bear 6 per cent. interest from the date of the appropriation by the State. It seems scarcely necessary to point out that interest on amount of any claim, whether for the appropriation of land, contract, negligence or any other cause, is based upon the amount of the final judgment and not upon the amount claimed. Cases of real hardship, under such circumstances, are rare. When brought to the attention of the Board such cases of hardship have been in every instance given a preference in the hearing.

As a result of this policy of the Board the total record of appropriation cases filed with the Board at the date of this report is as follows:

	Claims
On file January 1, 1914.....	649
Filed during year 1914.....	264
	<hr/>
	913
Decided during year 1914.....	254
	<hr/>
Leaving upon the files of Board.....	659
	<hr/> <hr/>

Six hundred and ninety-one cases now on file are for leakage or overflow from the canals and are for small amounts. A large portion of these so-called leakage cases spring from single causes and may be disposed of by the trial of one or two typical claims. Wherever possible the Board has taken up such typical action and disposed of them.

The following are the claims in which final disposition has been made by the Board during the year 1914:

In the foregoing 1,083 disposed of claims the
total amount claimed is the sum of..... \$14,687,775 25
The total amount of awards made therein, ex-
clusive of interest, is the sum of..... 2,139,977 33

Leaving a difference between the amount
claimed and amount of awards of..... \$12,547,797 92

The report of the Special Examiner and Appraiser of Canal Lands for 1914, shows that he has made 212 settlements for permanent Barge canal appropriations during the year, amounting to the sum of \$854,785.71. These settlements will save the time and expense of trials before the Board.

During the year 1914 the Board disposed of 1,083 claims as follows:

Trials, stipulations and dismissals.....	1,064
Judgments of Court of Claims made awards of this Board	6
Determinations entered after appeal.....	5
Determinations on report of referee.....	8

1,083

The official referees of the Board are provided for by a special act of the Legislature and consist of retired judges of the Court of Appeals, who agree to qualify as such referees. During the year former Justice Vann and former Justice Haight so qualified and heard the testimony in the eight claims referred to above and reported to the Board with opinions and findings of fact and conclusions of law.

Eight hundred and forty-nine claims filed during 1914, total amount claimed therein being the sum of \$16,533,488.71, classified as follows: 198 leakage; 291 Barge canal appropriations; 39 negligence; 49 contract; 272 miscellaneous. All of which claims are included in the 2,155 cases now pending and undisposed of.

There are now on file and undisposed of 2,155 claims of all kinds, classified as follows:

1. Total number of appropriation claims pending.....	659
2. Total number of leakage claims pending.....	691
3. Total number of contract claims pending.....	78
4. Total number of all other claims pending.....	677

A brief explanation of the nature of the above undisposed of claims may be interesting.

Claims under the head of "Leakage, Overflow and Damage to Personal Property" arose almost exclusively through seepage or leakage from the State canals at various points along the system. These claims are usually of a small amount, in many instances less than \$100.

Barge Canal Permanent Appropriation Claims.—These claims refer to the appropriation of land, buildings and other forms of real property for the improvement and extension of the State canal system under the so called Barge Canal Act (chapter 147, Laws of 1903).

Compensation.—Refers to a class of claims arising out of claims of employees along the canal for alleged over time beyond the legal requirement of daily time of service.

Negligence—Personal Injury.—Refer to the familiar class of claims growing out of the alleged negligence on the part of the State. These claims have arisen chiefly as a result of the operation of the canals. Also the State fair automobile accident cases come under this head.

Contracts.—Cover ordinary contract claims growing out of alleged breach of contract for the construction of the Barge canal, in the construction and repair of the State roads, and other forms of contracts between the State and private parties.

Taxes.—These cases grow out of the operation of the transfer tax law of 1905, as amended by chapter 186, Laws of 1910, and through the alleged unconstitutional affixing and cancelling of revenue stamps on transfer of stocks and bonds.

Miscellaneous.—This title covers a great variety of causes of actions.

The following sessions were held during the year 1914:

Albany, January 5th to 9th.

Rochester, January 13th to 30th.

Albany, February 2d to 24th.

Utica, March 2d to 27th.

All of which is respectfully submitted.

JOHN JEROME ROONEY,

Chairman.

ALBANY, N. Y., April 12, 1916

HON. EDWARD SCHOENECK, *President of the Senate:*

DEAR SIR.— I have the honor to transmit herewith to you for the Legislature of the State of New York the fifth annual report of the Board of Claims of the State of New York, covering the period from January 1, 1915, to May 27, 1915.

Very respectfully yours,

FREDERICK D. COLSON,
*Acting Clerk of the Board of Claims from
April 15, 1915, to May 27, 1915.*

REPORT

To the Legislature of the State of New York:

In accordance with the requirements of section 271 of the Code of Civil Procedure, the Board of Claims submits its Fifth Annual Report.

The Board of Claims, established by chapter 856 of the Laws of 1911, was abolished by chapter 1 of the Laws of 1915. Section 1 of this Act amended section 263 of the Code of Civil Procedure to read, in part, as follows:

“The office of commissioner of claims is hereby abolished, but the commissioners now in office shall continue to have the powers and duties of commissioners of claims until the appointment and qualification of judges of the court of claims, except that after this section as amended takes effect and until the appointment and qualification of judges of the court of claims they shall not hear, try or determine any claim, or entertain a motion or make an order affecting the substantial rights of a party. During the period of three months after the first appointment and qualification of judges hereunder, such commissioners shall have power to determine and dispose of questions, claims and matters which shall have been finally submitted to and heard by such board on or before January twenty-third, nineteen hundred and fifteen, in the same manner and with the same effect as if such board had not been abolished.”
